

SCANDI GROUP

**UPVC DOUBLE GLAZED
DOORS & WINDOWS**

UPVC DOORS & WINDOWS MAIN BENEFITS

Scandi Group's supplied granny flats and homes are built with top-quality German uPVC Rehau profile double or triple-glazed doors and windows, featuring multi-locking Roto hardware. You can expect:

- lower cooling/heating costs
- silence inside your home
- perfect protection against the elements
- security for your family and property
- self-extinguishing
- recyclable and eco-friendly

uPVC doors and windows are made using a special formula designed for extreme UV environments like those in Australia and New Zealand.

uPVC Doors

Hinged Doors

Euro Slide Doors

Notes. Euro slide doors come in fixed dimensions, 2100 mm high and 1000 mm wide panels.

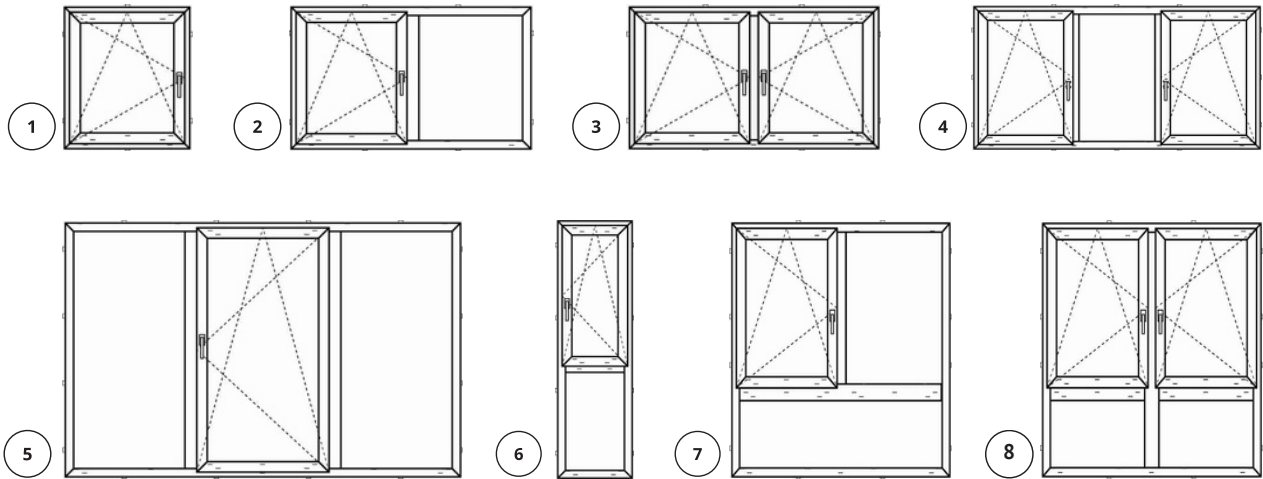

Tilt & Slide Doors

uPVC Windows

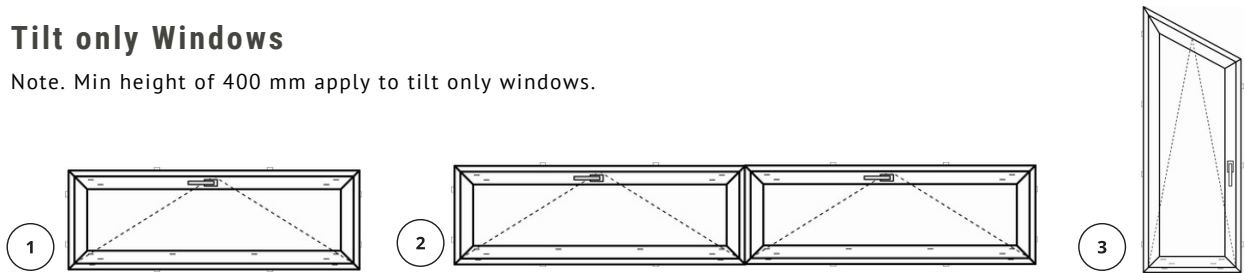

Tilt and Turn Windows

Note. Tilt and Turn windows made as a single panel without the partition has limits of Max width = 1400 mm and height = 1500 mm.

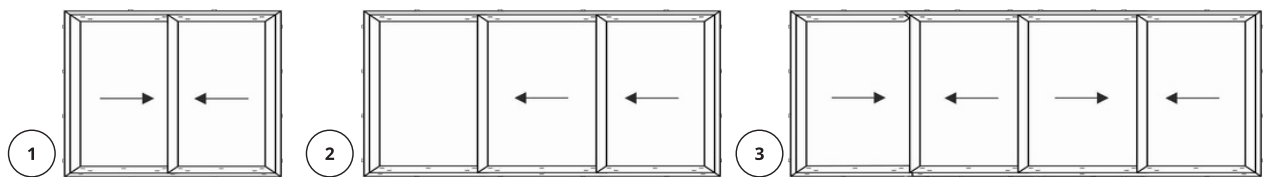

Tilt only Windows

Note. Min height of 400 mm apply to tilt only windows.

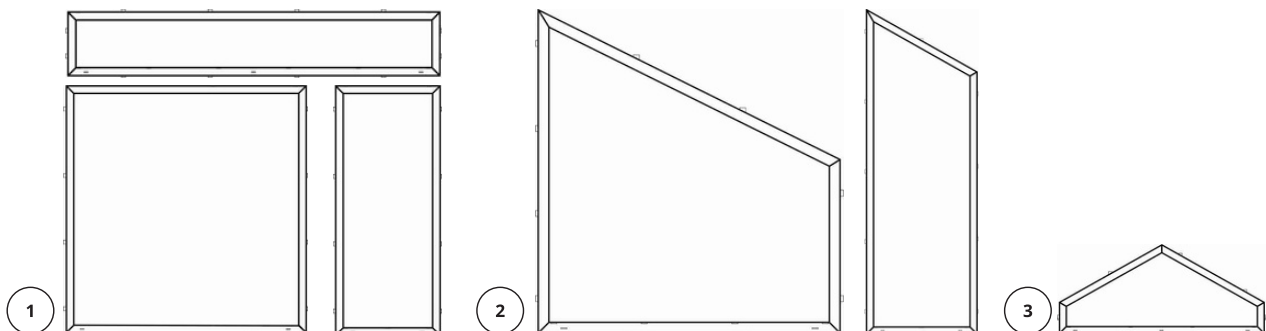

Euro Slide Windows

Notes. Min height of 700 mm apply to Euro slide windows.

Fixed Windows

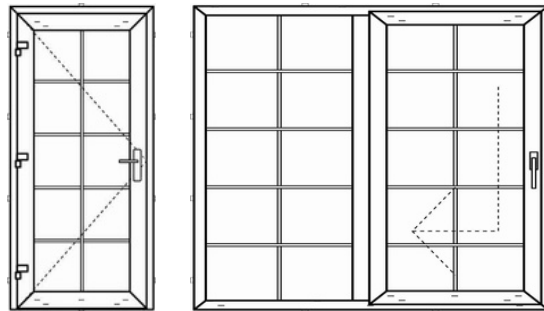

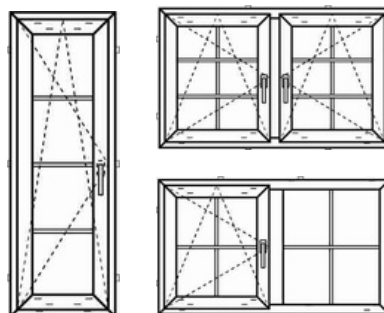

UPVC WINDOWS AND DOORS WITH DECORATIVE PARTITIONS

Decorative partitions are available with any door or window. As partitions are installed in the space between two panes of glass, this means you can have a colonial or French style house without the hassle to clean the small panes of glass and dust collecting partitions.

uPVC doors & windows colour options

uPVC frames are made from a special UV-resistant formula and come in a standard white color. For a customized look, you can choose from 10 different color options for your uPVC doors and windows.

Colored finishes are achieved by applying RENOLIT EXOFOL FX high-performance films to the frames, ensuring long-lasting durability in high UV index outdoor and indoor environments. You can also select different colors for the internal and external sides of the frame.
